stages of the disease.
The tissues of the lungs being irritated by the germs and poisons in the blood circulat-ing through them, the germs find lodgment there, and the lungs begin to break down. Soon the general health begins to fail, and the person feels languid, weak, mint, drowsy

This is the time to take Dr. Pierce's Gold-rn Medical Discovery; it drives the germs and poisons from the blood, and has a soothing effect upon the dry cough. In cases of broughtist the "Discovery" is invaluable. "Golden Medical Discovery" increases the amount and quality of the blood, thus invigorating and fortifying the system against dis-ense and builds up wholesome flesh and strength after wasting diseases, as fevers pneumonia, grip and other debilitating af-lections.

CRAWLING UNDER THE CANVASS. Chinese Invent a New Sheme to Evade the Exclusion Act.

San Francisco, July 15.—Che Chinese have discovered a new way by which they hope to beat the exclusion act. It is by landing Chinese here as natives of this state. The federal officials here have received information that a ring has ben formed here by Chinese and whites to land Chinese fraudulently. The Mongols are to be shipped here from Hong Kong as natives of California. For every one that is safely landed, the ring is to receive \$200. There are now said to be 200 young Chinese on the way here to be landed as native citizens.

Collector Wise has learned of the existence of the ring and he is already making means to prevent its operation Every Chinese that tries to land in the future will be closely examined and unless he proves beyond a doubt that he has a right to land, he will be sent back to China.

Washington, July 15.-The inter state commerce commission today granted' an extension of time within which all railroads must equip their cars with secure grab irons and hand holds on he ends and sides of cars, from July 1, until December 1, next. The time for complying with the act requiring the use of draw bars with standard height on all cars, has also been extended until February 15, 1896.

Gentlemen:—Replying to yours of the 1st, would say that I have used tobacco for 6 years, and of late have consumed a 19-cent plug a day, besides smoking considerably. I commenced to use tobacco when I was only II years old, and have never been able to give up the habit until I took Narcoti-Cure, although I have tried other so-called remedies without effect. After using your remedy four days, all "hankering" for chewing disappeared, and in four days more smoking became unpleasant. I have no further desire for the weed, and experienced no bad effects, whatever. I am gaining in flesh, and feel better than I have for a long time. To all who wish to be free from the tobacco habit I would say, use Narcoti-Cure, Yours truly, W. N. WAITE.

The had been stolen from Mrs. Bott. The state was trying to prove that a violin claimed by Fletchter, defendant, was the identical fiddle. Hence the importance of Kemenyi's testimony. When called Remenyi came forward and said he was nervous and didn't want to play. "What is the good?" he said; "it will show very little. I can take a violin that is worth 14 and make it mellow or harsh, just as I wish. It is the player more than the fiddle that counts."

"Well, before you play I want to ask you a few questions," said Mr. Fletchter's lawyer. "How long have you been playing the violin?"
